## New Wound Care Clinic

### ACCELERATING YOUR QUALITY OF LIFE

For patients living with a deep or chronic wound, everyday activities can be a battle. Without proper treatment patients may suffer for years without any improvement, or even worse, may face amputation.

JRMC has partnered with Accelecare®, a leader in advanced wound care, in a shared arrangement to establish onsite, outpatient programs that focus on chronic and non-healing wounds. Using cutting edge treatments and sophisticated case management, JRMC and Accelecare® will help patients improve the quality of their lives.

Types of treatment at the new JRMC Wound Care Clinic will include hyperbaric medicine, debridement, whirlpool therapy and vacuum assisted closures.

(L-to-R) JRMC CNO Trisha Jungels, wound nurse Monica Gussias and CEO K.C. DeBoer with the newly installed hyperbaric chamber.

(L-to-R) Donna Fischer, Frances Rude, Kathy Vandeberghe  
Read Frances' wound care story on page 2.

## HYPERBARIC CHAMBER ADVANCEMENT

Your body's tissues need an adequate supply of oxygen to function. When tissue is injured, it requires even more oxygen to survive. Hyperbaric oxygen therapy increases the amount of oxygen your blood can carry. An increase in blood oxygen temporarily restores normal levels of blood gases and tissue function to promote healing and fight infection.

Best known for treating undersea divers, hyperbaric chambers are more commonly used to treat patients facing the potential loss of limbs because of slow-healing, infected wounds. Diabetes and poor circulation frequently lead to deep foot wounds that resist other treatment.

Patients typically lie in a phone booth-sized chamber, breathing pressurized 100 percent oxygen for two hours a day, every weekday, for six weeks. The oxygen stimulates the body to grow new blood vessels in an injured area, boosting circulation and promoting healing.

The hyperbaric chambers also are used to help repair tissue damaged by cancer radiation treatments as well as to treat smoke inhalation, complicated bone or tissue infections, carbon monoxide exposure and scuba diving injuries.

If you have a wound that has not started to heal in two weeks, or is not completely healed in six weeks, you may be a candidate for wound care treatment.

# Wound care wins!

## FRANCES RUDE (cover image)

Frances Rude developed a pressure point in her foot that quickly turned for the worse. She was brought in to JRMC for surgery. Dr. Steven Maier operated to clean the deep wound. Soon after Rude began seeing Julie Schulz, Physical Therapist and Stephanie Schmidt, Aide in the JRMC Rehabilitation department for whirlpool therapy.

It was a difficult and slow process. However, Rude's daughters Donna Fischer and Kathy Vandeberghe accompanied her to every appointment. They enjoyed the time together and with their mom. "If we had a bad week, they (Schulz and Schmidt) were there for us. If it wouldn't have been for the care by Dr. Maier and JRMC Rehab, her foot would have been amputated," said Donna Fischer.

As a testimonial of excellent care, Rude's family designated gifts and memorials to JRMC Foundation.

**"Thank you JRMC Rehab department, you treated her so well and with respect,"**  
says Vandeberghe.

## MARY SMITH

Mary Smith is also a deep wound care patient at JRMC. She suffers from lymphedema and cellulitis, a common, potentially serious skin infection. If untreated, the spreading infection may rapidly turn life-threatening. That's why Smith turned to JRMC to receive whirlpool therapy. "I called it going to the spa," says Smith who noted that humor helped her stay focused on recovery. Treatment is a slow process and Smith did get frustrated at times when she didn't see progress.

**"I couldn't speak highly enough about the staff at JRMC. They were very kind and patient. They gave me confidence that treatment would work,"** says Smith.

## Examples of wounds we treat:

- diabetic wounds
- pressure ulcers
- venous stasis ulcers
- arterial wounds
- vasculitic wounds
- non-healing surgical wounds
- traumatic wounds
- infected wounds

## Uses for hyperbaric oxygen therapy:

- bubbles of air in your blood vessels (arterial gas embolism)
- diabetic foot ulcers
- decompression sickness
- carbon monoxide poisoning
- a wound that won't heal
- a crushing injury
- gangrene
- skin or bone infection that causes tissue death
- radiation injuries
- burns
- skin grafts or skin flaps at risk of tissue death
- severe anemia

The JRMC Wound Care Clinic is located in the JRMC Clinic. The goal is to have the clinic see its first patient by late June. For more information about the JRMC Wound Care Clinic, contact JRMC Chief Nursing Officer, Trisha Jungels at (701) 952-4829.

(L-to-R) JRMC Physical Therapist Lucas Morken, Mary Smith and former JRMC Aide Stephanie Schmidt.

## From the Foundation Director...

*A*t this year's volunteer appreciation banquet I spoke to the theme "you are so special." As I thought about volunteers and why they make a difference at JRMCM, I also thought of a poem I read years ago, The Dash by Linda Ellis.

The dash represents the short time we have, here, to make a difference, or not. And making a difference, being THE difference in the lives of those we serve, means so many different things to so many people.

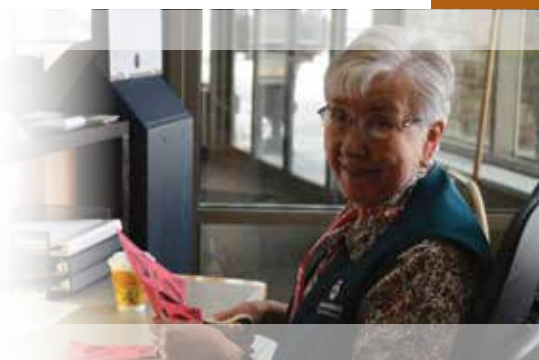

For the volunteer, what you do during that dash is most significant. Sure, you can give money to Foundation, but we pay you back in legendary patient care. Say you give \$10. It is appreciated without doubt. It is your money. However you may make it back, there are other ways of earning it.

But how do we give back time? We can't.  
How do we earn more? We can't.

As a volunteer you give time and that is what makes you so special.

The smiles of Ella, Shirley and Marlene welcome our guests at our front desk, Linda and Carol place the perfect gifts for loved ones in the JRMCM Gift Shoppe and knitted caps by Jerri, Becky and Joy keep those newborns warm. Larry calls telecare patients to make sure they are ok, healing blankets from Stitchers warm bodies and hearts and Ellen writes notes of "sunshine" to everyone. Volunteers bring skills, experience, friendship, leadership, inspiration and kindness.

That's what they bring. But time is what they give—the most precious commodity in the world. We may count your time in numbers which was 8,100 hours last year. We may attempt to count your time in cash value, approximately \$193,752. These methods however, still can't value your time.

We hope you enjoy this issue, dedicated to our volunteers—sharing ways that volunteers, staff, community and you make JRMCM so special.

With gratitude,

Lisa Jackson  
Foundation Director  
(701) 253-4806  
ljackson@jrmcnd.com

We've had a chance to get to know our CEO a little better since starting in late April and he is diving right in at JRMC.

Not only does K.C. DeBoer have a strong background in implementing new healthcare services as well as several facility construction projects, he also likes to cook chili and has even tentatively agreed to take the plunge. A perfect fit for the annual H.O.G's Polar Pig "Walk the Plank" for JRMC Hospice.

**"We are excited about relocating to Jamestown and being active members of the community."**

## Welcome K.C. DeBoer

### GETTING TO KNOW YOUR NEW CEO

#### Why did you decide to come to JRMC?

JRMC was an exciting opportunity to join a strong organization with a very bright future. As the vice president of the hospital division at Avera St. Luke's in Aberdeen, S.D., I've spent 14 years responsible for the administrative direction of all clinical services and several support services. I was ready to move into the CEO role and wanted to stay relatively close to family located in S.D.

#### What are your first priorities?

Get to know physicians, staff and the community. I am also getting involved in several service growth opportunities at JRMC and physician recruitment initiatives.

#### What are industry challenges right now?

We are in the midst of dramatic changes in the healthcare delivery system in this county on many fronts. The way we deliver care and are reimbursed for care will look much different a few years from now compared to today. JRMC has to position itself as a valued provider of services for payers, physicians and patients.

#### How is JRMC prepared to meet those challenges?

The culture of innovation and growth at JRMC will position us well for the changes to come.

#### Did you find a place to live?

We sold our home in Aberdeen and purchased a lot in the north part of town. We are hopeful to start construction this summer. Until that time, I'll be staying at JRMC's residence and I will have my son Daniel as a roommate. He is doing an internship with the U.S. Army Corps of Engineers at the Pipestem Dam.

K.C. and his wife Stacy have three sons; Daniel, a junior at the University of South Dakota, Matthew, who will be a freshman at NDSU in the fall and Eric, who is currently a freshman at Aberdeen Central High School will attend Jamestown High School in the fall and is excited about the possibility to play tennis for the Blue Jays.

#### What do you do for fun?

We spend most of our leisure time with family and especially, watching our sons' sporting activities. I like to hunt pheasants and fly fish. I'm also a gardener and enjoy making salsa each year.

As CEO, K.C. will oversee strategic, operational and clinical activities for Jamestown Regional Medical Center. He received an AA degree in Nursing from the University of South Dakota, a Bachelor of Science in Health Services Administration from the University of South Dakota and a Master of Health Services Administration from the University of Kansas.

a nomination for Philanthropist of the Year.

# Patient receives “collaborative” care

BY MAREN RADI, RN JRMC HOSPICE COORDINATOR

One afternoon in mid-November, JRMC Hospice nurse Jeanette Weiss came into my office and said, “We should get David Donegan to a Bison game.” David is a JRMC Hospice patient with Amyotrophic lateral sclerosis (ALS), often referred to as Lou Gehrig’s disease. He is also a huge North Dakota State University (NDSU) Bison fan.

(L-to-R) Maren, David and Jeanette.

On a Bison game day, you can see him decked out in green and gold Bison gear and cheering for his favorite team. Jeanette, knowing that David’s health was deteriorating, wanted him to experience a game in person while it was still possible. However, the last home game of the season was scheduled just a couple weeks away. It was also sold out.

Tickets would be released to the public on a first come, first serve basis on November 30th starting at 8:00 am. With the hope we’d get tickets, calls were placed to arrange David’s travel and special care needs.

I spoke with Ava Maria Village, where David lives, to see if we could use their bus and driver. I called Frank Redlin, JRMC Hospice volunteer for David, to see if he could accompany him on the trip for care. Then I checked with David’s significant other Jean Hagel, to see if they would in fact like to go. Finally, we touched base with Patricia Dardis to see if the John Dardis Memorial Hospice Gift Fund at JRMC Foundation would sponsor the tickets. Everyone agreed.

Next, to get the tickets. After many redials, I was able to get through to the NDSU ticket office and obtain three tickets for the game! JRMC Hospice staff talked to David and he was absolutely thrilled to go.

Our plan was set in motion. On December 7, David and Jean and Frank Redlin attended the semifinal game to see the two-time national champion Bison beat Furman University. David had a blast and was smiling for days afterwards... and still grins from ear to ear when you ask him about the game.

Thank you to Jeanette for knowing what David needed, Frank for volunteering your assistance at the game, Tim Burchell with Ava Maria for donating and driving the bus that day and the John Dardis Memorial Hospice Gift Fund for tickets.

Your collaboration gave David the experience of a lifetime.

## Did you know?

### JRMC FOUNDATION'S ENDOWMENT IS THE FUTURE OF AFFORDABLE, HIGH QUALITY, STATE-OF-THE-ART HEALTHCARE

JRMC is the only hospital in the state to offer 3D Mammography. It can detect breast cancer at stage 0 (zero). We also offer the AlterG® Anti-Gravity Treadmill providing mobility at a fraction of your body weight to recover better from surgery, stroke or sports injuries. The Bone Densitometry (DXA) on campus aids in early detection and prevention of osteoporosis. And now, the hyperbaric chamber for wound care.

Beyond the cost of acquiring the equipment, there are ongoing costs: software upgrades and training for physicians and technologists. Technology also promises patient safety. Our new electronic medical record, EPIC, connects patient records across multiple organizations, greatly enhancing the safety and quality of patient care.

Medical equipment and technology requires a significant financial commitment. Reimbursement from medical insurance simply does not cover the costs. To continue to offer the safest, most advanced care possible, we must invest in our endowment.

Endowment funds allow you to contribute to a fund that preserves the original gift and use only a portion of the earnings each year to fund projects—like those above—now and for the future.

### BECOME A PARTNER FOR THE FUTURE

Whether you make an annual gift to our endowment for the future or create your own named endowed gift, your dollar will last forever. Named awards are \$5,000. Named endowed scholarships, departments or equipment funds can be established with a minimum \$25,000 gift, pledged over a period of years.

### HOW TO GIVE

- donate cash
- donate securities
- create a planned gift  
(such as an annuity or bequest in your will)
- use the 40% North Dakota Tax Credit
- a combination of these options

## NAMED ENDOWMENTS

### John Dardis Memorial Hospice Gift Fund

The John Dardis Memorial Hospice Gift Fund at JRMC Foundation provides for non-medical needs of JRMC Hospice patients. Each new patient is also given a Sherpa Blanket. The Dardis fund was established by Patricia Dardis, family and friends in memory of John Dardis. If you would like to make a gift, please note the fund on your check or gift card.

### Nora Melvold Paulson Excellence in Leadership Award

This fund was established by Brian and Nancy Spector to honor the memory and legacy of Brian's grandmother, Nora Paulson, RN and her 20-plus years of service excellence in clinical care and nursing education at Jamestown Hospital, now Jamestown Regional Medical Center.

It provides an annual grant to a JRMC Registered Nurse—identified—by colleagues who consistently embodies a commitment to excellence in nursing education and clinical care. The award recipient also receives their name on a plaque. The plaque is located by the Martin & Cynthia Richman Conference & Education Center at JRMC.

Visit [www.jrmcnd.com](http://www.jrmcnd.com), click Foundation and **HOW TO GIVE** for more information.

# Outstanding Rural Health Professional

## AWARDED TO JRMC CNO, TRISHA JUNGELS

Trisha Jungels, CNO has shown a sustained impact on our community through her deep commitment to JRMC, our patients and employees. She is a passionate and spirited leader who goes above and beyond every day to embody and share the JRMC mission and vision.

**The following message is from Connie Krapp, chairman of the JRMC Board of Directors:**

On behalf of the JRMC Board of Directors, I would like to congratulate CNO Trisha Jungels on being chosen by the UND Center for Rural Health as this year's Outstanding Rural Health Professional! The statewide award "honors professionals (e.g. manager, administrator, director, legislator, etc.) who have demonstrated leadership in the delivery of rural health services, and are unselfishly committed to making a significant and sustained impact on the health of their community and service area."

The award will be presented to Trisha at a banquet during the 2014 Dakota Conference on Rural and Public Health. The social and banquet will be held on Thursday evening, June 19, at 5:30 p.m. at the Alerus Conference Center in Grand Forks.

## JRMC celebrates nurses

### AWARDS 2014 GRANT

May 6 was National Nurses Day. "Today is the day we celebrate nurses, they are the heart of healthcare. Thank you for your dedication to making the difference in the lives of our patients and their families. I am grateful to be part of your team," says JRMC Chief Nursing Officer Trisha Jungels.

**"Allison makes sure that she is doing her VERY best while she is teaching others."**

Danzl's peers note she is "very intent on making JRMC an organization that is focused on improving policies, procedures and day-to-day activities" and "committed and very willing to help you no matter what."

She is also taking the lead in the development of the Nursing Residency Program. The program will focus on making new graduates, great nurses through mentoring and education at JRMC.

*Congratulations!*

## Your words keep us going

### THANK YOU FOR SHARING YOUR EXPERIENCES

“I was treated with great respect from the moment I entered your facility. The staff was very friendly and helpful and answered all my questions. Thank you.”

— Al, Medina

“The efficiency of the staff made me feel at ease as I went through the different stages of the procedure.”

— LuVerne, Jamestown

“The professionalism and the comfortable feeling from the volunteers who met me at the front desk all the way to my surgeon, Dr. Maier.”

— Charles, Jamestown

“Dr. Dean, Angela Dugan and the rest of the staff...They all go out of their way to be helpful. Angie did a wonderful job on giving education on what surgery will do for you.”

— Anonymous

“We were taken care of so wonderfully. Everyone was very helpful and kind. Thank you for making Ashlyn’s surgery as good as it could have been.” — Laura, Jamestown

# VOLUNTEERS

## Breakfast at Perkins Leads to Service

### FEATURED VOLUNTEER, LOLA RUDNICK

After Lola Rudnick moved from Drayton, N.D. to Jamestown in 2012, she met Carolyn Exner, who was serving as JRMCAuxiliary President. Both women happened to be enjoying Sunday breakfast at Perkins. Sitting in close proximity, a conversation began and a new auxillian was recruited.

Soon after joining the JRMCAuxiliary, Lola Rudnick's spirit for, 'wanting something to do and meeting people,' was fulfilled by Judy Hoyt, fellow auxillian and volunteer, who encouraged her to volunteer at JRMCA's Front Desk. From there, she signed up for more hours with the surgery center.

Bright and early every Tuesday morning, Lola helps bring patients to surgery starting at 6:30 a.m.

Lola helps reduce patient anxiety by making sure they are personally guided through their time at JRMCA. "Lola helps bring patients back into the surgery center, to their rooms, brings families to see patients before surgery and when the doctor wants to visit with the family, Lola knows

where they are waiting," says Rhea Miller, RN and JRMCA Surgery Center charge nurse.

On one particular day, Lola helped 11 people get to surgery "Some days are super busy and that is what I like; no two days are every the same," Rudnick says with a chuckle.

She likes the challenges that come with volunteering and enjoys giving the staff a few quips of her humor. It was upon the surgery center staff learning of Lola's upcoming vacation and not wanting her to go, Lola commented, "You're just going to have to take that out of my pay!"

Today, Lola continues to be a JRMCA Front Desk and Surgery Center volunteer and member of the JRMCAuxiliary. Since her breakfast at Perkins in 2012, Rudnick has volunteered 560 hours of service.

“  
No two days are  
ever the same.”

Everyone at JRMCA appreciates her time and talents.

## “I do what I can”

### STITCHES FOR COMMUNITY CARE

Dianne Purcell started sewing in high school and has been counting every stitch since. With six sewing machines, Purcell makes dolls, dish towels, crocheted snowflakes and blankets. She has gifted multiple items to JPMC Foundation and Gift Shoppe to help raise funds for the community care fund supporting JPMC Community Care.

Purcell has experienced multiple medical events in the last few years, some major. “I have had to use Community Care two or three times to help pay for expenses,” says Purcell.

The Community Care or Partial Community Care program provides full or partial discounts on outstanding patient balances for services deemed medically necessary.

**JPMC provides more than \$430,000 annually in medical care for uninsured and underinsured patients.**

“They sure have been good to me in the ER, so I do what I can to give back,” says Purcell.

**For more information about the JPMC Community Care program,** please contact JPMC Business Office at (701) 952-4823. The application is also online at [www.jpmcnd.com/resource-center/patient-accounts/community-care](http://www.jpmcnd.com/resource-center/patient-accounts/community-care).

## Secret Santa Claus

### VOLUNTEERING SOME CHEER

One evening on the JPMC Patient Care Unit, a crying pediatric patient needed some cheer. After hearing this young patient crying, an anonymous visitor decided to try and comfort this patient. A man resembling Santa Claus asked the family and floor nurses if he could help cheer him up.

There were three nurses, Courtney, Danielle and Lisa, caring for the patient and it was time for his nebulizer treatment. The visitor, Santa Claus, offered his help to distract the patient from the treatment being provided. With this distraction, the nurses were able to provide him with the necessary care all in good spirits. Santa Claus also brought the patient a present when he came up later that evening. It was a very touching experience for those involved. A big thank you to the sweet man who was our secret Santa Claus.

oops!

**CORRECTION**

Last issue's story on the Monday Night  
Birthday Club should have quoted  
Donna Fischer as helping to start the  
club eight to ten years ago.

## WHY I GIVE...

### Donor Testimonials

**UNISON BANK**

Unison Bank employees raise funds through their Friday jeans day for community nonprofits. JRMC Foundation has been fortunate to receive their support since 2007. This year they gifted \$100 for JRMC Hospice. Thank you to Unison Bank employees!

**JIM HARTY, JR.**

JRMC Foundation received a gift from Jim Harty, Jr. in memory of Joann Merkel, mother of Cheryl Wolf. He made the gift because of "the care and attitude of the people" at JRMC. He went on to say that everyone - doctors, nurses and staff were awfully good to Joann. Both Joann and Jim's dad, Jim, Sr. were seen in ED and PCU. Jim Harty Sr. was also treated by rehabilitation. Thank you to each of these departments who inspired gratitude.

## Philanthropist of the Year

### NOMINATIONS OPEN FOR 2014

Do you know someone who has made an impact on healthcare in our region? Recognize their hard work by nominating them for the Philanthropist of the Year. The nomination form can be found online at [www.jrmcnd.com](http://www.jrmcnd.com) or by calling (701) 253-4806.

The criteria for this award show excellence in four areas:

- 1) support of individuals (or couple's) direct contribution to and in support of JRMC and JRMC Foundation
- 2) specific accomplishments in healthcare
- 3) participation in and support of other non-profit organizations in the community or region
- 4) personal involvement in leading others to be involved in philanthropy or community volunteer service
